Shock Desktop Crack+ License Keygen Free Download [Win/Mac] (Updated 2022)

Welcome to the new Shock Desktop Cracked 2022 Latest Version 2.1! This is a new version of the desktop icon paging tool that has been completely rewritten and enhanced to be faster and more intuitive. For the first time, you can select a profile and also customize the desktop icon appearance with one click using the customization panel. You can also create customized themes to quickly change the desktop look, as well as various other settings and configurations. With the new Shock Desktop, you can easily save all your desktop layouts and set them as the default on the system. And in case you need to reset the desktop appearance, you can do so with a single click. With a set of simple and intuitive features, the new Shock Desktop does not waste any time and provides only the tools you really need. What's new in version 2.1 In this version: - Optimized Speed & Performance - Support for Windows 7, Vista, 2000, XP - Added new and improved features - Added new settings Designed to be lightweight and with absolutely no features, the program comes as a free download. Given its light-weight nature, the tool won't be wasting any system resources in any case, although users will have the option to install it in your system's Program Files folder. Installing Shock Desktop is a simple matter and it doesn't take much time to get started. We were able to install the application within less than 5 minutes, once the installation completed. Simply double-click the program file to start using it immediately. When using the software, you can choose between four different layouts or you can create your own ones. By default, the program offers three different desktop icon layouts, although the last one comes as a default one. If you want to use the other three, you just have to right-click the system tray icon and enable it. Additionally, the customization panel is also available via a right-click. You can select the desktop layout type, the icon size, the number of icons on the same row and even the shape you want to use on the desktop. In case you want to use the predefined shapes, just select the option and add as many icons as you want to the corresponding shape on the desktop. Once the layout is set, you can select the active profile and customize it as you prefer. While the customization panel is of much help to enable the easy customization of your desktop layout
